

Finance

For more than a century, the Finance Group at Chambliss has counseled clients regarding corporate finance and securities. While laws have changed significantly since the firm started in 1886, the dedication to client service has not.

Chambliss routinely handles a wide range of corporate finance transactions. The firm has extensive experience in commercial lending, private equity, and handling workouts and related issues.

With a firm grasp of the client's business and a strong collaboration with lawyers from the firm's Tax, Construction, Environmental, and Real Estate Sections, Chambliss lawyers are focused on driving strategic solutions.
