

Our Firm

Proudly based in Chattanooga, Tennessee — named by Lonely Planet as the “Best in the U.S.” and “10 U.S. destinations you need to see in 2018”— we serve clients across the U.S. and abroad who benefit from our national and international reach through Meritas, the premier global law firm network. Please visit our [Meritas](#) page to learn more.

a) Our Mission

We practice our profession so that our clients value us for our services and advice; our peers outside the firm respect us for our ability and integrity; and our colleagues within the firm regard us with trust and appreciation.

b) Visit Our Office

In the heart of downtown Chattanooga, Chambliss is located in Liberty Tower, a 17-story building which was the first existing structure in Chattanooga’s city center to be completely renovated from its shell. The “LEED Gold Certified” office space features an innovative design that helps increase productivity and lessens the firm’s environmental footprint. The firm’s location is a benefit for clients because it offers enhanced digital capabilities (Chattanooga has some of the top internet speeds in the world), close access to three major interstates, and a short drive to the Chattanooga Metropolitan Airport with direct flights to many major U.S. cities.

Are you coming to visit? Click to view our [parking instructions](#).

Our Conference Center with the latest technology is located on the top floor of the building. It offers a variety of flexible meeting spaces for client meetings, depositions, seminars, and firm events. The [local art collection by SPLASH Youth Arts Workshop](#) and stunning city and scenic mountain views are great, too.

c) Sustainable Workplace

The Chambliss leadership team aims to offer a healthy, sustainable work environment. When Chambliss moved to Liberty Tower in 2012, it was the only law firm in the state to take the leap towards LEED (Leadership in Energy and Environmental Design) certification and was designated LEED GOLD for Commercial Interior by the U.S. Green Building Council in the summer of 2015 for exhibiting best-in-class building strategies and practices for energy conservation and environmental design. Some of the office’s LEED features include: healthful carpet and paint, use of natural light, occupancy sensors to control lighting, and regular recycling.

Chambliss is an active member of [green|spaces](#), is a part of the [Law Firm Sustainability Network \(LFSN\)](#), and has conducted an American Legal Industry Sustainability Standard (ALISS) self-assessment. The assessment helps track and measure sustainability efforts, provide a roadmap for additional steps to reduce the environmental impact, and provides a ranking of how firms are doing on sustainability.

d) Chambliss Art Connection

Through a partnership with [SPLASH Youth Arts Workshop](#), Chambliss features artwork by emerging artists ages 4 – 15 from Chattanooga, TN. The curated collection by working artist Charlie Newton is displayed throughout the Chambliss Conference Center and is open to the public during normal business hours. SPLASH is a year-round, free, youth arts workshop. The program encourages social responsibility and uses art to mentor children – providing them skills needed for success at school, in their lives, and in their futures.
