Real estate is an exciting field that offers me the opportunity to work with clients all over the country on projects that positively impact communities.

Becky Stone works with the firm’s real estate clients on commercial lending and financial transactions. She assists in the closing of commercial loans, title and survey review, and real estate research. With over 15 years of experience assisting Chambliss’ real estate and business teams, she knows what it takes to successfully meet the needs of corporate clients. Before coming to Chambliss, she worked in a wide variety of areas including estate planning, trust administration, business formation, and real estate.

Sidebar

Outside of the office, Becky enjoys spending time with family and friends, going dancing, and doing karaoke (watching only, not singing). In addition, she likes to quilt, write poetry, and go to Cloudland Canyon State Park (Rising Fawn, GA) to walk and take in the beautiful scenery and wildlife.
