

Family Business Planning and Succession

For over a century, Chambliss attorneys have been a full-service resource to family-owned businesses. Our multi-disciplinary team helps from startup and planning to succession. We have experience establishing family partnerships and limited liability companies to developing succession plans, and far more. We help our clients navigate the complexities of family business laws and proactively plan in a way that sets our clients up for success.

We are business-minded and understand the time and effort that goes into establishing a company. With our support and experience, clients are able to recapitalize and reorganize family businesses and utilize asset protection and life insurance trusts. Our team also has a strong understanding of Tennessee franchise and excise tax exemptions, as well as trusts for S-Corp, LLC, and LP interests that will help far into the future.

At Chambliss, our clients benefit from the diverse knowledge and experience of our entire team, including attorneys in mergers and acquisitions, estate planning, tax, and corporate. Throughout the process, we develop an intimate knowledge of our clients' interests and family dynamics, which allows us to create one-of-a-kind solutions.
