

## Probate – Estate and Trust Administration

---

Chambliss attorneys are here to assist with the probate process and other important steps of estate and trust administration. We know that after a loved one passes away, it can feel overwhelming. Our team is ready and prepared to help, no matter your circumstances. We know each family has a unique situation and our attorneys have extensive experience to help during this crucial time. In the event that a court-supervised probate administration is required, our team can prepare and manage the necessary probate documents to appoint a personal representative of the estate and walk you through each step of the probate process. If a court-supervised administration is not required, our team can assist with any trust administration or asset transfers they may be necessary.

Setting us apart from the competition, our team includes licensed CPAs who have substantial experience with filing gift, estate, inheritance, and income tax returns on behalf of trusts and estates.
