

Health Care Facilities

Meeting the legal needs of health care facilities across the country is at the heart of Chambliss' health care practice. Our health care team's versatile backgrounds have been instrumental to the success of our clients' high stakes transactions, vendor negotiations, practice planning, real estate and environmental matters, compliance, and profitability. For decades, we have worked with facilities in a range of areas including: ambulatory surgery, outpatient imaging and other diagnostics, laboratories, behavioral health, post and acute long-term care, hospice, and urgent care.

We also have an intimate knowledge of navigating community-based, government-owned, and quasi- governmental hospitals through highly technical laws and regulations, especially for patient privacy, compliance, and funding. The team often works with private equity groups and management companies on real estate acquisitions and facility mergers and has substantial experience negotiating contracts for a variety of licensed health care entities. Known for our prompt communication, competitiveness, and thoughtful approach, we are a go-to firm for private and public organizations and often serve as lead outside counsel in transactions and other proceedings.

Experience

Represent regional radiology providers across the U.S. in multiple acquisitions of diagnostic imaging centers

Served as outside counsel for regional, multi-specialty ambulatory surgery center jointly owned by physicians and hospital

Representation of health care clients in health care audits and reviews with private and federal payors

Assisting clients with real estate matters, including negotiation of agreements with lenders

Assist with certificate of need and other state and federal regulatory proceedings
